*Sangha Testimonial*

"As a long time student of Papaji and Gangaji and the many teachers that have come to Boulder, please accept my deepest pranams for one of the most memorable teachings I have personally received in the last 18 years. Sundance and Katie make a great team. Their humor, love and deep caring were expressed so easily. The meditation was amazing. Their quiet and gentle approach awakened in a simple way the wonder of the non-dual presence. I look forward to be invited into this timeless embrace with them again."

~ Chandra, Boulder, Colorado, USA

SILENT RETREAT is an opportunity to step out of daily activities and profoundly rest as deep silence. This stillness is the aliveness that is already within you, untouched by the ego, its time and suffering. This is an extraordinary chance to realize the Heart that you genuinely are at the core of being through being present, deep resting and Self-inquiry.

Silence will be observed from Wednesday evening satsang to Sunday morning satsang when we will join for a sociable lunch before our afternoon departure.
